

DRAFT: FRZ:blr  
29 September 1952

DRAFT OUTLINE FORMAT FOR STAFF STUDY ON KNOWLEDGE

1. Principal and Ancillary Objectives:

(What specifically do we want to achieve and what type of conditions or circumstances do we anticipate will exist?)

2. Capabilities:

(A broad statement of our current position to effect or bring an impact upon a change. This must include ability to reach the target area or selected targets somewhat removed from the target objective. This discourse ought to treat slightly of the possible techniques we could employ but which will require a build-up of capabilities under a long-term concept.)

3. Tasks:

(Specifics to be undertaken in all fields of covert and overt action under the following two conditions:

a. Prior to death;

b. At the instance of death and the period immediately following.

This assignment should include who, or what instrument, shall be responsible for effecting the desired course of action.)

**SECRET**
